Summary

I am Abdullah, an accomplished Full Stack (MERN Stack) developer. Throughout my 2 years career, I have showcased my expertise in all aspects of web development, striving to create exceptional web experiences. My focus lies in developing and maintaining robust web systems that deliver efficiency and value.

Equipped with a diverse skill set, I possess proficiency in a variety of technologies, including front-end (Next.js, React.js, React Native, Javascript, TypeScript) and backend (Node, MongoDB, Express.js, Prisma and more). These tools allow me to tackle complex challenges and deliver high-quality solutions.

Collaboration is at the core of my work ethics, and I thrive as a valuable team player. When working on independent projects, I exhibit effective self-management skills, ensuring timely delivery and the fulfillment of project requirements.

Thank you for taking the time to learn a bit about me and my aspirations.

Experience

Senior React Native Developer

ChearfulHealth

Aug 2023 - Dec 2023 (5 months)

Senior Frontend Web Developer

TheTutor.Me

Feb 2023 - Aug 2023 (7 months)

Lead Front End Web Developer

Dynalytix

May 2023 - Jul 2023 (3 months)

-- Freelance Contract Project--

- Developed frontend of a AI Powered Document Manager project, for Dynalytix.
- Utilized technologies like TypeScript, React.js, Jotai, React Query, Tanstack React Table, Chakra UI, and other tools to construct a robust front-end application.
- Implemented real-time updates using WebSockets, for live progress updates during file processing.
- Incorporated Stripe payment gateway for upgrading to the Pro plan.
- Utilized Google Drive API for document syncing.
- Enhanced user experience with file summaries, tag-based searching, and semantic search module.
- Maintained code quality throughout development for maintainable codebase.

Frontend Web Developer

TheTutor.Me

May 2022 - Feb 2023 (10 months)

TheTutor.Me is one of my best projects where I worked in a group with another developer and played a key role in the development of the platform and Contributed to the growth of TheTutor.Me, providing learners with a comprehensive platform for accessing tutors, managing sessions, and purchasing learning materials.

Achievements/Tasks:

- Leveraged TypeScript, React.js, Redux.js, Bootstrap, and other necessary packages and tools to build the platform dashboards from the ground up.
- Configured and implemented JitsiMeet for internal video calling tool TutorMeet, utilized by tutors and learners for interactive video sessions.
- Developed a comprehensive user management system, allowing tutors to sign up, set availability, and create services based on subjects, grades, and curricula.
- Implemented features for learners to create profiles, purchase sessions, manage scheduling, and perform actions such as rescheduling and canceling sessions.
- Designed and integrated a credit-based system, enabling learners to utilize credits to book sessions offered by tutors.
- Implemented transaction management, allowing learners to add payment cards for seamless service purchases.
- Integrated a secure banking system for tutors to link their accounts and withdraw earnings.
- Created a user-friendly profile management system for tutors, enabling them to showcase certifications, qualifications, skills, and subjects.
- Worked on learning material publishing feature, allowing tutors to create and sell educational content.

Education

Khwaja Fareed University of Engineering & Information Technology (KFUEIT)

Bachelor's degree, Computer Science

Jan 2022 - Mar 2026

Punjab Group of Colleges, Khanpur Campus.

Intermediate, Computer Science

Aug 2019 - Jul 2021

Licenses & Certifications

Programming with JavaScript - Coursera

69U8ZLL2CBNU

Getting Started with Git and GitHub - Coursera
